Mentoring Sessions available for Whyalla Businesses

23 September 2024

Regional Development Australia Eyre Peninsula (RDAEP) is offering mentoring services to Whyalla businesses as part of the Small Business Fundamentals Program, funded by the State Government's Office for Small and Family Business.

The program can support businesses to access up to three sessions, to a maximum value of \$900. However, places are limited. The mentoring is undertaken by third-party mentors.

RDAEP Chief Executive Officer Ryan Viney said these sessions are currently being offered exclusively to small and family businesses located on Eyre Peninsula.

"This is a great opportunity for small businesses that are looking for help across a range of disciplines, such as business planning, financial management, marketing, social media or HR.

"The Small Business Fundamentals Program is a unique chance for locally based businesses to get assistance in an area specific to their business needs."

Businesses can [visit the RDAEP website to view a list of possible mentors and find more information](#), or email tamsin.scholz@rdaep.org.au to express interest.

Please note, businesses will need to contact RDAEP to express their interest in taking up the offer, before undertaking any mentoring.
